

Quality policy

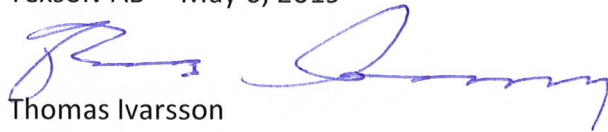

Texsolv's commitment is to constantly increase customer satisfaction by continuously improve the quality of products, supplies and service.

Our quality management system and our working methods shall be developed through continuous improvement. We do this by analyzing the customers 'and other stakeholders' demands on the business and through a constant commitment to meet applicable requirements.

We constantly want to improve our methods and processes to:

- Deliver products of the highest quality, in the right amount and at the right time, each time
- Continuously improve product quality by increasing our technical expertise
- Through continuous training and education, increase the staff's knowledge
